

Please do let the big banks call and bother my family.....Why doesn't  
Government work for the common everyday person...Why do you cater to the banking  
business and allow them to bully us around...I don't want them to be allowed to  
calling me. Tell them that we have rights not to be on their calling  
list....Indiana has a good law in regard to the no call list so let it stand as  
it is.....
